This brilliant design is made in one piece and is then quickly sewn together with a few short seams. It's a great way to use up left over yarn or create a new design from scratch.

ANYTHING GOES

The core of our teaching curriculum is a class called ANYTHING GOES. Instead of signing up to take a class based on a particular project or technique, you sign up to take a class at a particular time. That way you can work on the project of your choice; socks, sweater, hat, whatever you want! If you're not sure what to make, just talk to any of us in the shop before your class and we'll be glad to help you choose a new project. The class usually runs for four weeks except Fridays which meets every other week - four classes over eight weeks.

Sign up for the session(s) of your choice -
Skill Level: Basic Knitting to Intermediate • Age: Adult
If you don't know how to knit please join one of our Beginning Knitting Classes; after learning a few basic skills you'll be ready to join Anything Goes in no time.

DESIGN YOUR OWN CLASS

Friends + Project + Teacher = FUN

If you would like to schedule a class for you and a group of friends then give us a call. No matter what the size of the group, the sky is the limit on creativity, skill, and schedule. Knit, crochet, needle felt...beginner to advanced. Prices vary depending on number of students in class.

PRIVATE INSTRUCTION
Undivided Attention For Your
Knitting Questions

All this year we have seen the numbers of private lessons we give explode. You know how it is: you need help deciphering a pattern or setting in a sleeve. Or, you need help with yarn that you bought at a shop that is no longer in business. Lots of customers use private lessons as way to periodically 'check in' on a project they are making or a technique they are learning. For instance if you want to make socks then sign up for a few 30 minute private lessons: the first one to get started on double point needles, the second one when you are ready to turn the heel, and the third one when you need to finish the toe. When you book a private lesson then you will receive our undivided attention for as long as you need. The rate is \$20 per hour with a half hour minimum. You can request a certain teacher or we will set you up with someone based on the type of help you need. To schedule a lesson, please call the shop. Please note: reservations are required!

BEGINNING KNITTING

We feel it's important to get our newest knitters off to a good start so beginning knitting is taught as a private lesson. It takes about 90 minutes to learn enough so that you can independently knit a scarf. We use our own needles and yarn to teach you the basics of cast-on, knit, purl, and bind-off. Generally, students then purchase yarn and appropriate needles to take home and practice a scarf. Call the shop to make an appointment to learn how to knit. We'll get you going in no time and then you will be free to join our other classes.

•••SKILL LEVEL DEFINITION•••

Please pay careful attention to the skill level for each class. It's frustrating for everyone if students take a class that isn't appropriate for their knitting ability.

Beginner: No experience.

Basic Knitting Skills: You should already know how to cast-on, knit and bind-off.

Advanced Beginner: You should already know how to cast on, knit, purl and bind-off.

Intermediate: You've learned how to read most patterns and you can knit a sweater (with maybe a little bit of help).

ADULT CLASSES:

Unless otherwise stated our classes are for adults only (minimum age 14). As much as we love kids and pets they are not welcome in our adult classes. We reserve the right to ask a parent to leave if they arrive for an adult class with a child.

REFUND POLICY:

Our classes require a minimum of four students. We will notify you by phone if there aren't enough students. Cancellations by students must be made at least a week before the class starts in order to receive a refund. After that date fees are not refundable or transferable. Make-ups are not allowed.
